Rudy's adaptability and ability to excel in this program are indicative of his strong academic foundation.

In the summer of 2023, Rudy embarked on a Glass Physics research project in Cedar Rapids, Iowa, under the mentorship of Dr. Steve Feller. This experience allowed him to delve into the fascinating world of glass physics, where he contributed to important research endeavors. His dedication to expanding his knowledge in this field speaks to his passion for scientific exploration and his ability to excel in research environments.

Rudy's dedication to research was further exemplified during his summer internship at the National Solar Observatory, where he conducted in-depth research on atmospheric conditions of the Sun.
